Become a Home-Based Commission Travel Agent

Looking for the best "Travel opportunity in Canada"? Think you can sell travel? Would you really enjoy having a business which consists of helping others turn their vacation dreams into reality? Do you want the benefits of working from home? If you answered YES, maybe the Estar Travel Home Based Commission Agent Opportunity is right for you!

Estar Travel provides motivated Canadians with the tools and training required to operate a successful home based travel business, regardless of previous travel industry experience. Estar Travel knows that the key to success in the travel industry is personal motivation and commitment, a desire to achieve positive results and the confidence to invest in yourself - not necessarily previous industry experience.

Having your own Travel Agent Home Based Business in travel is the most exciting home business opportunity for the "Work from Home entrepreneur." This is particularly true for people who are looking for a home based initiative that is simple to operate, inexpensive to start, and has great individual benefits like personal travel rewards. It can be done full-time or part-time. It's really up to you how you choose to define your work from your home travel business.

Estar Travel has established a highly successful track record by providing support and infrastructure for a national network of Travel Agents. Our unique concept consists of a full service Home Business designed for you as a Travel Agent, regardless of experience. Our home based travel business system provides flexibility in the way you work in your travel career, and is easily customized to your current lifestyle and needs.

As a "Host Travel Agency", our company provides individuals like you with the "business farm work", state-of-the-art tools and systems you need to run your home based travel business.

There's no need for you to start your travel business from scratch; by joining the Estar Travel Home Based Commission Agent Program, you can take advantage of all the tools, training, resources and supplier relationships (commissions) that we have developed over the years.

Our host Agency Services puts in your hands a turn-key solution which enables you to start promoting and selling travel products and services in a very short period of time... without having to setup a full retail infrastructure (office lease, etc.).

You're ready to start your own home based travel business if you:

- Have a passion for travel and would like to make it your business.
- **Already book travel for your friends and family and want to get paid for it.**
- Want flexible full time or part time hours.
- Are looking for financial independence.
- Want a home based business initiative that is simple to operate and inexpensive to enter.
- Want to become a certified licensed travel agent.
- Have a great network of prospective clients.
- Want to have unlimited access to one-on-one support to help you succeed.
- Want to travel at reduced rates as other professional travel agents do.

In addition we suggest you also ask the following questions:

Why do you charge \$495.00 when other host agencies in Canada charge up to 25k?

The main reason is, we have a different Business Model. Ask yourself, why do many franchise companies like Tim Horton's or McDonalds have a very low "franchise fee"? The answer is they make their revenue on the Royalty fees. A strong Host Agency will make sure that the agents are successful, thus making their revenue on the 30% split. The business owner retains 70% profit on all of their deals. The Host Agencies that are charging ridiculous amounts make their revenue on the initial investment. Would you rather have a Host Agency that depends on its agents or one that has already reaped its profits?

Will I receive the support promised?

Yes! Estar Travel can only succeed if its agents are successful.

How about training and is it covered in the initial fee?

Yes, full training is included in the initial fee. There are too many training examples to list. We are more than happy to discuss all of these with you.

Is this a viable business? Isn't everybody booking all their travel on the internet?

First, the simple fact is that everyone is NOT booking all their travel on the internet.

In fact, studies conducted by the travel industry have shown that most people will use the internet to do basic research and then book with a real person, either a travel agent or a reservationist at the supplier. Besides, a lot of people, especially older, well-heeled folks with a lot of money to spend on travel, don't even know how to use the internet

How soon will it be before I start seeing the benefits of being a home based agent? Like Fam trips and discounts?

You can start seeing discounts immediately if you are booking your own travel. There are some "tricks" that newcomers can use to start taking low-cost Fam trips almost immediately. If you think you will be able to travel around the world for next to nothing while doing no work, you have come to the wrong place. There are plenty of places that will be glad to take your money and promise you just that. We want you to experience the world but remember, this is a business.

Are you a photo ID card or a Multi-Level Marketing Firm?

Absolutely not! We will help you apply for the coveted CLIA photo ID card when qualified. We do not provide any other photo ID card. Think about it. If at all anyone has to do is to pay \$495 and then fly first class, stay in suites for free, and take cruises for \$10 per day, who would pay full fare? If you really believe you can do all this for \$495. you probably deserve to lose the money anyway. The truth is that when these operations first started they were able to fool some of the suppliers with phony ID cards and travel discounts but the industry is wise to them now and it is going to be difficult (if not impossible) to fool anyone into accepting phony ID cards. A MLM firm usually has many variations. Two of the most common are when they offer you rewards for bringing in additional agents or when you are forced to call in your reservations to a central call center and pay you a small commission. We do not do this.

Do you have quotas?

Absolutely not! We offer incentives for those who produce. Some examples are:

waiving the monthly fee, FREE Seminar at Sea, FREE Trips, etc.

What are the fees?

We have a one time investment of \$495.00. We also charge a \$25 administration fee.

What about hidden fees such as: to mail tickets, credit card transactions, check charges, invoice charges?

No other charges. This is all covered in the commission split. Host agencies that continue to nickel and dime you to death do not have a solid business model or foundation.
